Volunteering

Mega Sports Camp Troy, IL 2013-2014

I organized and led two week long summer basketball camps at Troy United Methodist Church. The ages were K-6th Grade and we had approximately 40 attendees each summer. I also trained high school students to help run some stations.

Urban Future Saint Louis, MO 2012-2014

For 2 years I volunteered 1-2 days per week with Urban Future to do after school math tutoring. I worked at Louverture Middle School and tutored two students at a time. We were given a curriculum based on individual math level, and I usually developed some type of game for the students to play.
